LUCARIS
Crystal of Modern Asia

CLASSY GLASS

Lucaris has unveiled its new collection, Desire, designed in collaboration with Nelson Chow, chairman of the Hong Kong Sommelier Association. The innovative range, dubbed Aerlumer, adds curved lines to the bottom of the glass, to release more aromas from the wine as it swirls and allow for further micro-oxidation once it has been poured. Experience the flavours of your favourite wine in a novel sense, as Aerlumer opens up its bouquets like never before. Forget the many glasses you intend to buy for those different wines to be served at your next dinner party; an average glass with Aerlumer is enough to bring out those intense, bold flavours you seek. Visit lucariscrystal.com/products for more information
